

FOR SALE IN EL CORTE INGLÉS DE POZUELO

"Area Zero emissions" non-polluting cars and motorcycles

Ricardo Fraguas

Area Zero emissions, a center specializing in the dissemination, promotion and sale of solutions for sustainable personal mobility and energy efficiency, opens its doors in El Corte Inglés in Pozuelo de Alarcón. In this new space the customers of the Center can inquire, test and purchase their electric vehicle with all the usual buying advantages in El Corte Inglés.

"Area Zero emissions", owned by Electric Mobility Solutions (EMS), a company dedicated to the research, development and innovation of solutions for sustainable mobility, has among its objectives to publicize the advantages and peculiarities of 100% electric and zero vehicles Emissions. This type of vehicle not only allows the generation and accumulation of renewable energy, but also has other advantages such as free and unlimited parking in controlled green and blue parking areas, free refills in public places as well as in centers of El Corte Inglés and the tax exemption for enrollment along with the government incentive of 6,000 euros, offering a rational solution for daily commuting without giving up the pleasure of driving.

"AREA Zero emissions" is a meeting place for information and dissemination of sustainable personal mobility and energy efficiency, where visitors receive comprehensive advice to choose a vehicle that best suits their needs, while proposing solutions Energy efficiency and reduction of pollutant emissions.

The creation of this new space is a decisive impetus for the promotion of sustainable personal mobility with the aim of reducing emissions and noise pollution in the Community of Madrid.

"AREA ZERO emissions" offers an exclusive selection of electric vehicles on the market such as the TAZZARI Zero European city car two-seater vehicle with an average range of 140 kilometers and a self-limited speed of 100 km / h, In the city and fast tracks for less than 1 euro cent in electricity per km traveled and can be purchased for less than 14 euros per day in payment postponed to 5 years without entry. But urban bikes can also be bought from British company Xero Technologies for less than 6 euros a day in 12-month interest-free payments and other products for leisure and sustainable personal transport such as the Dutch stroller Mantys
